Ruth Halteman

Senior Software Engineer

ruthhalteman@gmail.com

SKILLS

JavaScript, Typescript, React, Redux, Chrome extensions, CSS, Storybook, HTML Canvas, Git, InboxSDK, Java, Node.js, Kotlin, Algolia, AI, Kefir.js, Fabric.js, SQL, Postgres, Figma

EXPERIENCE

Streak - *Senior Software Engineer*

JANUARY 2022 - PRESENT

- Contributed to a large and complex chrome extension that works on top of and within Gmail. Features include CRM capabilities and many power tools including integrations and AI features. Acted as project manager on a very lean team.
- Contributed to open source project InboxSDK, which is used by over a thousand active applications

Venngage - *Tech Lead*

JULY 2018 - DECEMBER 2021

- Led a proof of concept project for a smart design tool which was later integrated into the main product.
- Led the platform team, responsible for all areas peripheral to the central design tool such as template search and recommendations, account management, SEO
- Managed several interns and ran the hiring process multiple times

Roadmunk - *Web Developer*

DECEMBER 2016 - MARCH 2018

- Worked independently as the only developer on the marketing team, implementing a full rebrand and new web pages for different marketing efforts (podcast, ebooks etc)
- Led process to evaluate and eventually switch out the marketing automation platform

Various Internships - *Full Stack Developer*

5 x 4-month blocks during my university degree

- Learned autonomy and adaptability early by having to do lots of onboarding and learning many new tech stacks quickly

EDUCATION

University of Waterloo - *BA Psychology, Computer Science minor*

2011 - 2016
